Rapid Compliance

As companies increasingly focus attention on their supply-chain performance, mission critical Vendor Labeling and EDI Compliance mandates become more frequent and complex. By virtue of its ASP architecture, **LIQUIOCOMPLIANCE™** and **LIQUIOEDI™** relieve primary development and deployment responsibility for these initiatives from enrolled Vendors.

Turnkey Solution

A flexible pricing structure allows all Vendors to realize the immediate benefits of 100% Labeling and EDI Compliance. Vendor programs range from occasional use service bureau, to unlimited use subscription or lease options bundled with PC and printer. Compliance becomes easy with a LIQUIO solution!
